1. Downlad & print DubioCube file

2. Start filling in, starting with your preferred side

3. Continue with the other sides...

... continue with the other sides...

4. Cut out the cube along the outlines

5. Fold all the edges

6. Glue the flaps on the edges

... glue the flaps on the edges...

7. Your DubioCube is ready! If you have a couple of them, you can try to stack them "why-side up"
